

# ProGreen HiThi

Optimises sheep and cattle performance on Brassica and Canola Crops.

ProGreen HiThi is a moisture resistant loose lick powder designed for animals grazing on Brassica and Canola forage crops. ProGreen balances the protein to energy ratio which increases the utilisation of every mouthful of feed, while also providing high levels of thiamine (B1) to reduce the risk of polioencephomalacia (PEM) (Thiamine deficiency).

## Why use ProGreen HiThi?

- Balances the typically high protein levels experienced when grazing brassica and canola crops to support optimal liver function
- Antioxidants support cellular function that decreases nutrient requirements for repair and replacement, to minimise energy wastage
- Contains rumen protected thiamine to help reduce impact of polioencephomalacia (PEM)
- Contains proven methane-mitigating ingredients; including one certified by the Carbon Trust

## How much should I use?

	Dose rate per head per day	Doses per 25Kg bag
SHEEP	10-20 gm	1250-2500
CATTLE	50-80 gm	312-500

## How do I use ProGreen HiThi?

Allow 2cm headspace for sheep and 5cm for cattle, place in open, free draining containers where stock gather

1. Provide only daily amounts over the first ten days to ensure gorging risk is reduced.

Nutrient Level (DM basis)	
Crude Protein	20%
Carbohydrate	15%
Crude Fat	0%
Magnesium	20%
Sodium	5.9%
Sulphur	0%
Calcium	5%
Zinc	497 ppm
Copper	340 ppm
Selenium	1.3 ppm
Thiamine	1200 ppm
Cobalt	3.3 ppm

Nutrition Profile	
Macro nutrients	Calcium, Phosphorus, Magnesium
Micro nutrients	Zinc, Copper, Selenium, Cobalt, Manganese, Iodine
Vitamins	A, D, E, B1
Other	Bio actives, amino acids

2. After the first ten days, give two days' worth, every second day.
3. Once intake is consistent, provide ad lib. Stock will regulate intake as required.

- Free from Urea and Hormones
- Free from Lasalocid and Monensin
- Nil Withholding Period,

# Sheep and Cattle Nutrition Range

Pelletised feed additives and loose lick powders for use in supplementary feeding programs 365 days a year. ProAgni products are free from all antibiotics.

Situation	Product	Form	Dose Rate
Grazing on dry feed and stubbles	ProDry	Powder	Sheep 20g/hd/day Cattle 80g/hd/day
Grazing green feed and forage crops	ProGreen		
Optimised performance on Brassic and Canola	ProGreen HiThi		
Ewes approaching parturition	ProMark		
Sheep paddock grain: supplementary feeding	ProTect S	Pellet	25kg per tonne of ration (2.5%) (No more than 500g/hd/day grain)
Sheep feedlot	ProTect S		50kg per tonne of ration (5%) (no fibre needed in well managed feedlot)
Cattle paddock grain: supplementary feeding	ProTect C		2.5kg per tonne of ration (2.5%) (no more than 5kg/hd/day)
Cattle feedlot	ProTect C		50kg per tonne of ration (5%)
Lamb weaning	ProTect S Wean		
Calf weaning	ProTect C Wean
