ProWean C®

Antibiotic-free complete feed for calves. Built for profit. Proven performance.

USE: *FEEDLOT, DROUGHT LOT, PASTURE*

PACKAGED AS: *25KG BAGS, 40 BAG PALLETS, 1T BULKER BAGS OR BULK*

FORM: *COMPLETE FEED*

Safer weaning, stronger growth. ProWean C delivers heavier calves post-weaning and sets the animal up for life.

- Minimises weight loss at weaning
- High protein and energy to support weaners
- Supports immunity and better health outcomes

ProWean C contains

- Plant proteins including bypass and rumen degradable forms of high-quality protein
- Powdered milk, a high protein, energy and fat source
- Acid Buf, a highly effective rumen buffer, containing a pure source of bio-available minerals for rumen efficiency
- Contains methane-mitigating ingredients, including Carbon Trust: carbontrust.com certification.

Are ProAgni livestock supplements right for your livestock?

Find the right solution for your feeding system, including bulk ordering options for feedlots. Speak to your nutritionist, visit **proagni.com** or call us on 02 6040 0683

Powered by OptiWise®

Detailed trial information for this product is available at **proagni.com/trials**

Dose rates:

START:	INCREASE BY:
250g/hd/twice a day	*250g/hd/feed till weight achieved

*For detailed feeding and weaning protocols, visit proagni.com.

How do I use ProWean C?

ProWean C is a pelleted feed, to be fed directly to calves as part of an early weaning protocol.

- Supply to calves using feed trough or trail feeding.
- Provide access to ad lib cereal hay and cool, clean water. Introduce ration by feeding 250g per head, fed twice a day. Each day increase ration by 250g per head per feed until ad lib consumption is achieved.
- Once calves are consuming up to 1kg per day, additional cracked/rolled cereal grain may be added to ProWean C at a ratio of 2:1 e.g. 1kg ProWean C + 500g cereal grain.
- Feed ProWean C to calves for 14 to 21 days, or until calves reach liveweight of at least 120kg.
- Following early weaning, calves can transition to a grain-based diet containing ProTect C

ProWean C product information

- Free from hormones and urea
- Free from antibiotics and ionophores - lasalocid sodium and monensin sodium
- Nil withholding period, nil export slaughter intervals
- Feed only to calves. Do not feed to dogs, horses (or other equids) or poultry as this may prove fatal
- Contains methane-mitigating ingredients, including Carbon Trust: carbontrust.com certification.

Nutrient analysis:

Nutrient Values:

Nutrient name	Typical analysis	Unit of measure
Protein, Crude	21.6	%
MJ ME ruminant	11.2	me/kg

Macro minerals:

Nutrient name	Typical analysis	Unit of measure
Calcium	0.6	%
Phos. Total	0.6	%
Sodium	0.13	%
Potassium	0.69	%
Magnesium	0.23	%
Sulphur	0.46	%

Micro minerals:

Nutrient name	Typical analysis	Unit of measure
Manganese	33.6	mg/kg
Iron	105.61	mg/kg
Copper	20.74	mg/kg
Zinc	44.84	mg/kg
Selenium	0.45	mg/kg
Cobalt	0.11	mg/kg
Iodine	0.55	mg/kg

Vitamins:

Vitamin D3	0.41	kiu/kg
Vitamin A	4.14	kiu/kg
Vitamin E	93.98	mg/kg
